What is software engineering?

- fancier title
- architect vs code monkey

What is engineering?
Engineering - Applied Science

Design vs. Implementation
Engineering is a formal process.
I want a program to break a class into groups.

1. How many groups?
2. What size?

Specifications / Requirements.
We now have speech.

I would ask:

Now what?

Tone down.

Pseudo code.

How is this helping the household?
depending on project

Pseudo code

$\text{weight?}$

$\text{change}$

$\text{time}$
