Senior Computer Science Design Project

Request for Proposal

The Department of Computer Science seeks proposals for products from qualified suppliers.

1) **Qualifications** - Persons wishing to make a proposal must be seniors majoring in the department in Computer Science and have satisfactorily completed the prerequisite courses.

2) **Presentation of Proposals** - Proposals will be presented during the third week of class in CSci 195. An oral presentation lasting about 10 minutes, which includes slides is required (see "Outline of Project Proposal Presentations"). Persons wishing to make a proposal must also submit a written report as shown in the attached "Outline of Project Proposal Report."

3) **Labor Requirements** - Projects proposed must be of sufficient complexity to require at least 400 hours of work and must be completed by the fourth week in April.

4) **Schedule of Deliverables** - The deliverables are shown in the accompanying Schedule of the Year. A total of 9 reports and oral presentations will be presented throughout the entire two semesters.

5) **Approval** - Only proposals that have received a prior oral approval from the instructor may be presented at the Proposal Presentation. Failure to obtain a prior oral approval will prevent formal presentation.

**Submittals** - A copy of the proposal on 8 1/2 x 11 inch paper must be submitted at the time of the formal proposal presentation. **Do not place the report in a folder.** Staple it in the upper left-hand corner. The report must follow the "Outline of Project Proposal Reports" attached hereto.
